**G-116-CW-1620**

---

**INSPIRED BY THE CLASSIC CABINET OF  
CURIOSITIES**

These modern butterfly collections are captured on canvas and will add an evocative pop of color to your home. This piece features a trio of winged beauties and a faux antique frame that is actually part of the vintage-inspired canvas.

Our suggestion? Mix and match your canvas wall art with other pieces like thrift store finds, family heirlooms, framed posters and exotic textiles, like our vintage saddle bags, to create a unique gallery wall.

**Size: 16x20**

Please note that the faux frame is actually a printed part of the canvas itself.

Ready to hang.

**Price: \$51**
